

Standing *Richard Smallwood*

VERSE

Lord we walk by faith and not by site
Sometimes we can't see beyond the night
But we know beyond the gloom there's light
Yes I am standing on Your promises

Jobs are gone. The economy has failed
But we're praying that our land you'll heal
And we know through faith we will prevail
Yes I am standing on Your promises

CHORUS

(I'm) standing on Your promise
Trusting in Your Word I'm
I'm standing on Your promise
Trusting in Your Word
(repeat once, then invert)

I'm standing on Your promises

BRIDGE

Standing, standing, standing on the promises of Christ my savior
Standing, standing...

/CHORUS/
